

DATE: November 17, 1988
TO: Curtis Durrant
FROM: Ed Chu *Ed Chu*
SUBJECT: Your November 7, 1988 Memo
Concerns About Tank Contract Specification No. 2928

A preconstruction meeting has been scheduled by Construction Engineering at 10:00 a.m. on November 18, 1988, in Room 710 of the City Light Building. Permits and environmental concerns which you mentioned in your memo will be on the agenda for discussion. Any additional questions pertaining to the project will also be discussed.

As you are aware, the specification requires the Contractor to submit a proposed progress schedule, showing the order and time required on the various phases of the work prior to the notice to proceed.

In addition, the Contractor shall not commence work until a copy of each permit or license has been furnished to the Engineer. The Contractor is also required to obtain an EPA permit for handling hazardous materials.

I suggest that you attend the preconstruction meeting to discuss the environmental issues. If you have any further questions, please don't hesitate to give me a call at 684-3554.
